PROGRAM OVERVIEW

Two Personalized Tracks, One Trainer

This is a fully personalized, one-on-one coaching program for founders, marketers, freelancers and agency professionals who want to grow genuine, sustainable organic traffic — not just learn the theory. Every session is live, one-on-one, and shaped around your website, your niche and your goals.

Choose the Beginner track to build a complete foundation, or go straight into the Advanced track if you already run SEO and want to master today's AI-driven search landscape — AI Overviews, Generative & Answer Engine Optimization (GEO/AEO), structured data and topical authority. Both tracks are delivered by Hemant Kalwani or a senior trainer from Team Global Web Digital and Learn AI Digital — our expert professional trainers — personally shaped around your business, your product and your goals.

WHO DELIVERS THE TRAINING

Sessions are delivered by Hemant Kalwani himself, or by a senior, expert professional trainer from Team Global Web Digital and Learn AI Digital — vetted and mentored directly by Hemant to the same standard. Either way, you get personalized, 1-on-1 live coaching from a practitioner who runs real websites and SEO campaigns, not a generic instructor.
